Scientific Society Editors

High Blood Pressure Research Council of Australia: S Harrap, G Head, I Burrell

Australasian Society of Clinical and Experimental Pharmacologists and Toxicologists: J Ziogas

Australian Neuroscience Society: P Martin

Australian Physiological and Pharmacological Society: I McCance

Clinical and Experimental Pharmacology and Physiology is published 12 times per year and provides a medium for the rapid publication of original research papers, short communications, rapid communications and theoretical articles (hypotheses) on the results of clinical and experimental work in pharmacology and physiology. Invited review articles are published occasionally. *Clinical and Experimental Pharmacology and Physiology* aims to make a substantial contribution to effective and productive communication between scientists throughout the world who are working in these interrelated disciplines. Papers accepted become copyright of the Journal. *Clinical and Experimental Pharmacology and Physiology* has been adopted by the High Blood Pressure Research Council of Australia and the Australasian Society of Clinical and Experimental Pharmacologists and Toxicologists.

All original research papers, short communications, rapid communications, hypothesis papers and invited brief reviews are reviewed by at least two investigators expert in the field of the submitted paper.

Abstracting and Indexing Services: This journal is covered by ADONIS, BIOSIS Database, CAB Abstracts, Cambridge Scientific Abstracts, CancerLIT, Chemical Abstracts Service, Current Contents/Life Sciences, Elsevier BIOBASE/Current Awareness in Biological Sciences, EMBASE/Excerpta Medica, Index Medicus, Inpharma Weekly, Journals@Ovid, Medical Documentation Service, MEDLINE, Reactions Weekly, Reference Update, Research Alert, Science Citation Index, SciSearch, Toxicology Abstracts, UnCover and University Microfilms.

Editorial office address: Editorial office, CEPP, Department of Physiology, PO Box 13E, Monash University, Victoria 3800, Australia. Tel: + 61 3 9589 2155, Fax: + 61 3 9589 4355. Editorial Assistant: Georgina Nunn: cepp@blackwellasia.com

For details concerning the submission of manuscripts, please refer to the Instructions for Authors at the back of most issues of the Journal or visit the Journal web page.

Business Correspondence: For all matters relating to orders, online and print subscriptions, back issues, offprints, advertisement booking and general enquiries, please contact Blackwell Publishing Asia, PO Box 378, Carlton, Victoria 3053, Australia. Tel: (+61) 3 9347 0300; Fax: (+61) 3 9347 8057; email: info@blacksci-asia.com.au; website: www.blackwell-science/cep

Blackwell Journals Online: *Clinical and Experimental Pharmacology and Physiology* is also available online via Blackwell Synergy. Full-text online articles include reference links to cited articles and external databases, and a full search facility so you can find the information you are looking for. Keep up-to-date with the latest tables of contents, emailed directly to your desktop, by registering for free at: www.blackwell-synergy.com

Copyright and Photocopying: © 2002 Blackwell Publishing Asia Pty Ltd. Authorization to photocopy items for internal or personal use, or the internal or personal use of specific clients, is granted by Blackwell Publishing Asia for libraries and other users registered with the Copyright Clearance Center (CCC) Transactional Reporting Service, provided that the base fee of US\$15 per copy is paid directly to CCC, 222 Rosewood Drive, Danvers, MA 01923, USA. This consent does not extend to other kinds of copying, such as copying for general distribution for advertising or promotional purposes, for creating new collective works or for resale. This journal is printed on acid-free paper

CONTENTS

NUMBER 1/2, JANUARY/FEBRUARY 2002

Brief Review

- 1 Salvaging the ischaemic penumbra: More than just reperfusion?
TG Phan, PM Wright, R Markus, DW Howells, SM Davis and GA Donnan

Original Articles

- 11 Activation of α_1 -adrenoceptors is not essential for the mediation of ischaemic preconditioning in rat heart
E Vasara, S Seraskeris and A Lazou
- 18 Distribution of Ca^{2+} -activated K^+ channel (SK2 and SK3) immunoreactivity in intestinal smooth muscles of the guinea-pig
MF Klemm and RJ Lang
- 26 Lack of impairment of nitric oxide-mediated responses in a rat model of high-renin hypertension
C Artigues-Varin, V Richard, S Renet, JP Henry and C Thuillez
- 32 L-Arginine protects against stress-induced gastric mucosal lesions by preserving gastric mucus
Y Ohta and K Nishida
- 39 Muscle strength and ageing: Methodological aspects of isokinetic dynamometry and androgen administration
LP Ly and DJ Handelsman
- 48 Pharmacokinetics of organic anions in rats with arterial calcinosis
NB Quaglia, CG Hofer and AM Torres
- 53 Uneven changes in circulating blood cell counts with adrenergic stimulation to the canine spleen
Y Ojiri, K Noguchi, N Shiroma, T Matsuzaki, M Sakanashi and M Sakanashi
- 60 Effect of various oestrogens on cell injury and alteration of apical transporters induced by tert-butyl hydroperoxide in renal proximal tubule cells
HJ Han, SH Park, HJ Park, KM Park, JW Kang, JH Lee, BC Lee and WS Hwang
- 68 Enterogastric brake in rats with segmental bowel resection: Role of capsaicin-sensitive nerves
T Topcu, MA Gülpınar, ÇA İşman, BÇ Yeğen and C Yeğen
- 73 Cerebral thrombosis and microcirculation of the rat during the oestrous cycle and after ovariectomy
H Ono, Y Sasaki, E Bamba, J Seki, JC Giddings and J Yamamoto
- 79 Concentration of egg white lysozyme in the serum of healthy subjects after oral administration
S Hashida, E Ishikawa, N Nakamichi and H Sekino
- 84 Garlic and its active metabolite allicin produce endothelium- and nitric oxide-dependent relaxation in rat pulmonary arteries
DD Ku, TT Abdel-Razek, J Dai, SA Kim-Park, MB Fallon and GA Abrams
- 92 Nitric oxide-mediated vasodilatory effect of atrial natriuretic peptide in forearm vessels of healthy humans
T Sugamori, Y Ishibashi, T Shimada, T Sakane, N Takahashi, S Ohata, N Kodani, Y Kunitzawa, S-I Inoue, Y Ohta, K Nakamura, H Shimizu, H Katoh and Y Murakami

Experimental Biology 2001 Somatic Sensation During Movement and its Role in Autonomic Control

- 98 The vestibul sympathetic reflex in humans: Neural interactions between cardiovascular reflexes
CA Ray and KD Monahan
- 103 Neural circuits controlling cardiorespiratory responses: Baroreceptor and somatic afferents in the nucleus tractus solitarius
JT Potts
- 112 Role of the vestibular system in regulating respiratory muscle activity during movement
BJ Yates, I Billig, LA Cotter, RL Mori and JP Card
- 118 Balancing acts: Respiratory sensations, motor control and human posture
SC Gandevia, JE Butler, PW Hodges and JL Taylor
- 122 Exercise and hypertension: A model for central neural plasticity
JM Kramer, JA Beatty, ED Plowey and TG Waldrop

Experimental Biology 2001 Early Impact of Diabetic Hyperglycemia on Renal and Cardiovascular Function

- 127 Blood pressure control early in diabetes: A balance between angiotensin II and nitric oxide
MW Brands and SM Fitzgerald
- 132 A metabolic mechanism for cardiac K^+ channel remodelling
GJ Rozanski and Z Xu
- 138 Multiple mechanisms of early hyperglycaemic injury of the rat intestinal microcirculation
HG Bohlen, GP Nase and JS Jin

- 143 Altered electromechanical coupling in the renal microvasculature during the early stage of diabetes mellitus
PK Carmines and K Fujiwara
- 149 Potentiation of glucose-mediated glomerular injury by mechanical strain
P Cortes and J Yee

NUMBER 3, MARCH 2002

Brief Review

- 153 Endothelium-derived hyperpolarizing factor: Is there a novel chemical mediator?
CR Triggle and H Ding

Original Articles

- 161 Heterogeneity of the properties of I_{Na} in epicardial and endocardial cells of rat ventricle
BN Honen and DA Saint
- 167 Possible involvement of P-glycoprotein on biliary excretion of grepafloxacin
YL Zhao, SH Cai, L Wang, K Kitaichi, Y Tatsumi, M Nadai, H Yoshizumi, K Takagi, K Takagi and T Hasegawa
- 173 A comparative study on the activity of lansoprazole, omeprazole, and PD-136450 on acidified ethanol- and indomethacin-induced gastric lesions in the rat
SI Chandranath, SMA Bastaki and J Singh
- 181 Characterization of lymphocyte β_2 -adrenoceptor signalling in patients with left ventricular volume overload disease
N Dzimir, C Basco, A Moorji, B Afrane and Z Al-Halees
- 189 Protective effect of α -lipoic acid against ischaemic acute renal failure in rats
M Takaoka, M Ohkita, Y Kobayashi, M Yuba and Y Matsumura
- 195 *Dendroaspis* natriuretic peptide administered intracerebroventricularly increases renal water excretion
JU Lee and SW Kim
- 198 Effect of vasodilatory β -adrenoceptor blockers on cardiovascular haemodynamics in anaesthetized rats
H Takahashi, H Masaki, Y Komiya, M Masuda and M Nishimura
- 204 Val-Tyr as a natural antihypertensive dipeptide can be absorbed into human circulatory blood system
T Matsui, K Tamaya, E Seki, K Osajima, K Matsumoto and T Kawasaki

Symposium: Integrative Physiology of Exercise

- 209 Exercise and skeletal muscle gene expression
D Cameron-Smith
- 214 Large artery stiffness: Implications for exercise capacity and cardiovascular risk
BA Kingwell
- 218 Adaptations of skeletal muscle to prolonged, intense endurance training
JA Hawley

Experimental Biology 2001 Autonomic and Cardiovascular Regulation: Focus on Nociceptin and Opioid Peptides

- 223 Pharmacological profile of nociceptin/orphanin FQ receptors
G Calo, A Rizzi, R Bigoni, R Guerrini, S Salvadori and D Regoli
- 229 Role of nitric oxide in mediating vasodilator responses to opioid peptides in the rat
HC Champion, TJ Bivalacqua, JE Zadina, AJ Kastin, AL Hyman and PJ Kadowitz
- 233 Sympathoinhibitory action of nociceptin in the rat spinal cord
GC Brailoiu, CC Lai, CT Chen, LL Hwang, HH Lin and NJ Dun
- 238 Opioid signalling in the rat rostral ventrolateral medulla
PG Guyenet, RL Stornetta, AM Schreihöfer, NM Pelaez, A Hayar, S Aicher and IJ Llewellyn-Smith
- 243 Responses to microinjections of endomorphin and nociceptin into the medullary cardiovascular areas
HN Sapru and VC Chitravanshi
- 248 Stress-specific opioid modulation of haemodynamic counter regulation
PE Molina
- 254 Nociceptin/orphanin FQ modulates the cardiovascular, but not renal, responses to stress in spontaneously hypertensive rats
DR Kapusta, LA Dayan and VA Kenigs
- 260 **Book Review**

NUMBER 4, APRIL 2002

Brief Review

- 261 Central mechanisms underlying short- and long-term regulation of the cardiovascular system
RAL Dampney, MJ Coleman, MAP Fontes, Y Hirooka, J Horiuchi, Y-W Li, JW Polson, PD Potts and T Tagawa

Original Articles

- 269 Effects of combined pioglitazone and metformin on diabetes and obesity in Wistar fatty rats
M Suzuki, H Odaka, N Suzuki, Y Sugiyama and H Ikeda
- 275 Nitric oxide in mesenteric vascular reactivity: A comparison between rats with normotension and hypertension
H-R Chang, RP Lee, CY Wu and HI Chen
- 281 Effect of α -lipoic acid on lipid peroxidation and antioxidant enzyme activities in diabetic rats
Y Dinçer, A Telci, R Kavalı, İA Yılmaz, U Çakatay and T Akçay
- 285 Neutrophil migration during liver cirrhosis in rabbits
FC Penteado, HHA Ferreira, SC Calafatti, G Bernasconi, H Piovesana and J Pedrazzoli Jr
- 291 Modulation of [35 S]tert-butylbicyclophosphorothionate binding by somatostatin in rat hypothalamus
F Chigr, S Ba M'hamed and M Najimi
- 299 Altered expression of vascular natriuretic peptide receptors in experimental hypertensive rats
JU Lee, S Kim, M Jung, YW Oh and SW Kim

Experimental Biology 2001 Symposium on Potassium Channels that Regulate Vascular Tone: Which are the Important Players?

- 304 Introduction
DD Gutterman and J Hume
- 305 Oxidative stress and potassium channel function
Y Liu and DD Gutterman
- 312 Functional roles of K_{ATP} channels in vascular smooth muscle
JE Brayden
- 317 Molecular diversity of vascular potassium channel isoforms
VP Korovkina and SK England
- 324 Role of augmented expression of intermediate conductance Ca^{2+} -activated K^{+} channels in postischaemic heart
T Saito, Y Fujiwara, R Fujiwara, H Hasegawa, S Kibira, H Miura and M Miura
- 330 Potassium channels underlying the resting potential of pulmonary artery smooth muscle cells
AM Gurney, ON Osipenko, D MacMillan and FEJ Kempson

Experimental Biology 2001 Symposium on Mitochondria and Energy Metabolism in Heart Failure, Hypertrophy and Remodeling

- 334 The adenine nucleotide translocator: Regulation and function during myocardial development and hypertrophy
MA Portman
- 339 Transcriptional activation of energy metabolic switches in the developing and hypertrophied heart
JJ Lehman and DP Kelly
- 346 Mitochondrial proteins in hypertrophy and atrophy: A transcript analysis in rat heart
H Taegtmeyer, P Razeghi and M Young
- 351 Myocardial energetics in cardiac hypertrophy
J Zhang

Short Communication

- 360 Capsazepine partially inhibits neurally mediated gastric mucus secretion following activation of protease-activated receptor-2
A Kawabata, M Kinoshita, R Kuroda and K Kakehi

NUMBER 5/6, MAY/JUNE 2002

Brief Review

- 363 Role of trophic factors' in the development, survival and repair of primary auditory neurons
PL Marzella and LN Gillespie

Original Articles

- 372 Acute effects of L- and T-type calcium channel antagonists on cardiovascular reflexes in conscious rabbits
MG Devlin, JA Angus, KM Wilson and CE Wright

- 381 Quinapril treatment restores the vasodilator action of insulin in fructose-hypertensive rats
T Uchida, K Okumura, T Ito, H Kamiya, Y Nishimoto, M Yamada, T Tomida, H Matsui and T Hayakawa
- 386 Beneficial effect of T-1095, a selective inhibitor of renal Na⁺-glucose cotransporters, on metabolic index and insulin secretion in spontaneously diabetic GK rats
K Nunoi, K Yasuda, T Adachi, Y Okamoto, N Shihara, M Uno, A Tamon, N Suzuki, A Oku and K Tsuda
- 391 Effects of caffeine on the uncoupling protein family in obese yellow KK mice
A Kogure, N Sakane, Y Takakura, T Umekawa, K Yoshioka, H Nishino, T Yamamoto, T Kawada, T Yoshikawa and T Yoshida
- 395 Effects of molybdenum, silicon and nickel on α -adrenoceptor-induced constriction of rat isolated aorta
DL Liu, M Yan, YL Chua, C Chen and YL Lim
- 399 Weight reduction decreases soluble cellular adhesion molecules in obese women
H Ito, A Ohshima, M Inoue, N Ohto, K Nakasuga, Y Kaji, T Maruyama and K Nishioka
- 405 Endothelial function in mesenteric resistance arteries from the genetically hypertensive rat
H Liu, JM Ledingham, I Mullaney and R Laverty
- 412 Age-related changes in dopamine D2 receptors in rat heart and coronary vessels
C Cavallotti, F Nuti, P Bruzzone and M Mancone
- 419 Decrease in catechol-O-methyltransferase activity in the liver of streptozotocin-induced diabetic rats
JP Wang, IM Liu, TF Tzeng and JT Cheng
- 423 Effect of KAD-1229, a novel hypoglycaemic agent, on plasma glucose levels after meal load in type 2 diabetic rats
K Ichikawa, T Yamato, K Ojima, A Tsuji, K Ishikawa, H Kusama and M Kojima
- 428 Effects of endomorphin-1 and -2 on μ -opioid receptors in myenteric neurons and in the peristaltic reflex in rat small intestine
M Storr, A Hahn, E Gaffal, D Saur, HD Allescher
- 435 Chronic hypoxia preconditioning increases survival in rats suffering from heatstroke
H-C Wen, C-C Lee, W-C Lee, K-S Huang and M-T Lin
- 441 Highly protective effects of chronic oral administration of nicorandil on the heart of ageing rats
S Garnier-Raveaud, G Faury, C Mazenot, F Cand, D Godin-Ribuot and J Verdetti
- 449 Effects of glycine on glomerular filtration rate and segmental tubular handling of sodium in conscious rats
K Thomsen, CB Nielsen and A Flyvbjerg
- 455 Effects of birth on baroreceptor-mediated changes in heart rate variability in lambs and fetal sheep
Z-Y Yu and ER Lumbers

Short Communication

- 464 Antioceptive action of captopril and transcutaneous electric nerve stimulation in *Mus musculus* mice
MA Motta, MdaS Vasconcelos and MTdeAJ Catanho

Experimental Biology 2001 Neurotransmitters in Cardiovascular Regulation: Angiotensin

- 467 Role of angiotensin II receptors in the regulation of vasomotor neurons in the ventrolateral medulla
RAL Dampney, MAP Fontes, Y Hirooka, J Horiuchi, PD Potts and T Tagawa
- 473 Angiotensin peptides as neurotransmitters/neuromodulators in the dorsomedial medulla
DI Diz, JA Jessup, BM Westwood, SM Bosch, S Vinsant, PE Gallagher and DB Averill
- 483 Angiotensin AT₁ receptor signalling pathways in neurons
C Summers, MA Fleegal and M Zhu

Experimental Biology 2001 Neurotransmitters and Cardiovascular Regulation

- 491 Glutamate circuits in selected medullo-spinal areas regulating cardiovascular function
HN Saprú
- 497 Glutamatergic neural transmission in the nucleus tractus solitarius: N-Methyl-D-aspartate receptors
AC Bonham and C-Y Chen
- 503 Role of excitatory amino acid inputs to the rostral ventrolateral medulla in cardiovascular regulation
AF Sved, S Ito and Y Yajima
- 507 GABA in the control of sympathetic preganglionic neurons
IJ Llewellyn-Smith
- 514 The baroreflex and beyond: Control of sympathetic vasomotor tone by GABAergic neurons in the ventrolateral medulla
AM Schreihofer and PG Guyenet
- 522 Neurotransmitters in central cardiovascular regulation: Glutamate and GABA
FJ Gordon and AF Sved

525 Book Review

NUMBER 7, JULY 2002

Special Article

- 527 Statistical techniques for comparing measurers and methods of measurement: A critical review
J Ludbrook

Original Articles

- 537 Altered mitogen-activated protein kinase activation in vascular smooth muscle cells from spontaneously hypertensive rats
T Kubo, T Ibusuki, S Chiba, T Kambe and R Fukunori
- 544 Insulin-enhanced liposome-mediated gene transfer into a gastric carcinoma cell line
N Ohmiya, N Emi, Y Niwa, H Goto and T Hayakawa
- 549 Effects of melanocortins on cardiovascular regulation in rats
D Ramaekers, F Beckers, H Demeulemeester, C Bert, C Deneef and AE Aubert
- 559 Caffeine decreases the expression of Na⁺/K⁺-ATPase and the type 3 Na⁺/H⁺ exchanger in rat kidney
JU Lee, JH Ha, S Kim, YW Oh and SW Kim
- 564 Involvement of oxidative stress in bee venom-induced inhibition of Na⁺/glucose cotransporter in renal proximal tubule cells
HJ Han, SH Park, JH Lee, BC Yoon, KM Park, WC Mar, HJ Lee and SK Kang
- 569 Involvement of α -calcitonin gene-related peptide in heat stress-induced delayed preconditioning in rat hearts
J Peng, R Lu, L Xiao, H-W Deng and Y-J Li
- 575 Role of Ca²⁺-activated K⁺ channels in the regulation of basilar arterial tone in spontaneously hypertensive rats
M Kamouchi, T Kitazono, T Nagao, M Fujishima and S Ibayashi
- 582 Effects of a 1 day fast on biohumoral variables associated with human circadian rhythmicity
K Uezono, T Kawasaki, K Itoh and P Cugini
- 589 Selective peripheral regulation of noradrenaline and adrenaline release by nitric oxide
HH Elayan, BP Kennedy and MG Ziegler
- 595 Critical role of gap junctions in endothelium-dependent hyperpolarization in rat mesenteric arteries
K Goto, K Fujii, Y Kansui, I Abe and M Iida
- 603 Effects of blockade of α -, β -adrenoceptors and neuropeptide Y₁ receptors, as well as brachial plexus blockade, on endothelium-dependent vasodilation in the human forearm
K Johansson, M Eriksson, I Wahlqvist, B von zur Mühlen and L Lind

Short Communication

- 608 Effects of endotoxin-induced shock on the withdrawal contractions in the isolated guinea-pig ileum
M Fatehi, A Tanomand and Z Fatehi-Hassanabad

Symposium: Cellular and Mechanical Coupling in the Arteriolar Wall

- 612 Cellular signalling in arteriolar myogenic constriction: Involvement of tyrosine phosphorylation pathways
TV Murphy, BE Spurrell and MA Hill
- 620 Heterogeneity in the distribution of vascular gap junctions and connexins: Implications for function
CE Hill, N Rummery, H Hickey and SL Sandow
- 626 Cellular coupling and conducted vasomotor responses
TO Neild and GJ Crane
- 630 Myoendothelial electrical coupling in arteries and arterioles and its implications for endothelium-derived hyperpolarizing factor
HA Coleman, M Tare and HC Parkinson

A1 Abstracts of the 23rd Annual Scientific Meeting of the High Blood Pressure Research Council of Australia Inc.

A41 Abstracts of the Annual Scientific Meeting of the Australian Atherosclerosis Society

NUMBER 8, AUGUST 2002

Original Articles

- 639 Nicorandil improves myocardial high-energy phosphates in postinfarction porcine hearts
Y Murakami, X Wu, J Zhang, K Ochiai, RJ Bache, T Shimada
- 646 Different effects of β -adrenoceptor desensitization on inhibitory actions in guinea-pig trachealis
H Mizutani, H Kume, Y Ito, K Takagi and K Yamaki

- 655 Effect of training on activation of extracellular signal-regulated kinase 1/2 and p38 mitogen-activated protein kinase pathways in rat soleus muscle
JS Lee, CR Bruce, BE Spurrell and JA Hawley
- 661 Intratracheal administration of glucocorticoids using surfactant as a vehicle
AJ Nimmo, JR Carstairs, SK Patole, J Whitehall, K Davidson and R Vink
- 666 Heterogeneous distribution of β -adrenoceptor and muscarinic receptors in the sinoatrial node and right atrium of the dog
F Kurogouchi, T Nakane, Y Furukawa, M Hirose, Y Inada and S Chiba
- 673 Inhibition of proliferation and signalling mechanisms in human lymphocytes by fluvastatin
DZ Hillyard, AJM Cameron, AH McIntyre, MH Hadden, HE Marshall, N Johnston and AG Jardine
- 679 Effect of glycerol on endothelium-derived factors in the vasculature of the rabbit kidney
EY Sipahi, ZA Keskil, M Erdinc, Y Nergis, RK Türker and ZS Ercan
- 684 Antihyperglycaemic and anti-oxidant properties of *Anoectochilus formosanus* in diabetic rats
C-C Shih, Y-W Wu and W-C Lin
- 689 Cardiovascular responses during stimulation of hindlimb skeletal muscle nerves in anaesthetized rats
T Ishide, WJ Pearce and A Ally
- 696 Vasopeptidase inhibition in a canine model of exercise-induced left ventricular dysfunction
HH Holzgreffe, SR Arthur and JR Powell

Short Communications

- 704 Effect of grapefruit juice on plasma chloroquine kinetics in mice
BH Ali, A Al-Qarawi and HM Mousa
- 707 Chronic ethanol consumption alters vascular smooth muscle responses in rats
CO Ladipo, SA Adigun, CI Nwaigwe and BJ Adegunloye

Third Annual Scientific Meeting of The Institute of Cardiovascular Science and Medicine

- 710 Introduction
CP Lau, GW He and HJ Ballard
- 711 Functional analysis of histamine receptor subtypes involved in endothelium-mediated relaxation of the human uterine artery
MM Spitaler, A Hammer, R Malli and WF Graier
- 717 Smooth muscle and endothelial function of arterial grafts for coronary artery bypass surgery
G-W He, Q Yang and C-Q Yang
- 721 Baicalin-induced vascular response in rat mesenteric artery: Role of endothelial nitric oxide
Y Huang, SY Tsang, X Yao, CW Lau, YL Su and ZY Chen
- 725 Evidence for the existence of a constitutive nitric oxide synthase in vascular smooth muscle
LS Cheah, MCE Gwee, R Das, H Ballard, YF Yang, EE Daniel and CY Kwan
- 728 A rat model of ischaemic or dilated cardiomyopathy for investigating left ventricular repair surgery
T Nishina, S Miwa, S Yuasa, K Nishimura and M Komeda
- 731 Problems in the use of herbal and natural substances, with a specific example concerning the cardiovascular system
PKT Pang, C Benishin, R Lewanczuk and J Shan
- 735 Heart valve replacement surgery: Past, present and future
A Starr, CL Fessler, G Grunkemeier and G-W He
- 739 Software Reviews

A69 Abstracts of the 3rd International Mouse Symposium

NUMBER 9, SEPTEMBER 2002

Brief Review

- 741 Ion channel formation and membrane-linked pathologies of misfolded hydrophobic proteins: The role of dangerous unchaperoned molecules
JI Kourie and CL Henry

Original Articles

- 754 Association of the SULT1A1 R213H polymorphism with colorectal cancer
CF Wong, N Liyou, B Leggett, J Young, A Johnson and ME McManus
- 759 Cardiovascular and vocalization reactions elicited by *N*-methyl-D-aspartate in the pretentorial periaqueductal grey of cats
MR Wang, JS Kuo and CY Chai

- 772 Effects of dopamine and nitric oxide on arterial pressure and renal function in volume expansion
MA Costa, A Loria, M Marchetti, AM Balaszczuk and CT Arranz

Short Communications

- 777 Mode-dependent inhibition by quinidine of $\text{Na}^+/\text{Ca}^{2+}$ exchanger current from guinea-pig isolated ventricular myocytes
YH Zhang and JC Hancox
- 782 Contractile properties of the diaphragm in creatine-fed rats
M McGuire, A Bradford and M MacDermott

Invited Reviews: Animal Toxins of Asia and Australia

- 784 Introduction
WC Hodgson, DCY Kwan and WSF Wong
- 785 Spiders of medical importance in the Asia-Pacific: Atracotoxin, latrotoxin and related spider neurotoxins
GM Nicholson and A Graudins
- 795 Autonomic effects of some scorpion venoms and toxins
MCE Gwee, S Nirthanam, H-E Khoo, P Gopalakrishnakone, RM Kini and L-S Cheah
- 802 Bioactive proteins from stonefish venom
HE Khoo
- 807 *In vitro* neuromuscular activity of snake venoms
WC Hodgson and JC Wickramaratna
- 815 Molecular moulds with multiple missions: Functional sites in three-finger toxins
RM Kini
- 823 Effect of calcium on the vascular contraction induced by cobra venom cardiotoxin
CY Kwan, TK Kwan and SJ Huang
- 829 Toxic marine dinoflagellates in Singapore waters that cause seafood poisonings
MJ Holmes and SLM Teo

Fourth Annual Scientific Meeting of The Institute of Cardiovascular Science and Medicine

- 837 Introduction
CP Lau, YF Cheung and ML Fung
- 838 Old and new risk factors for atherosclerosis and development of treatment recommendations
J Frohlich and SA Lear
- 843 Roles of adenosine in skeletal muscle during systemic hypoxia
JM Marshall
- 850 Is hypertension a leading cause of heart failure in Chinese?
MG Nicholls and AM Richards
- 852 Cyclosporine A protects against apoptosis in ischaemic/reperfused rat kidneys
T Zhu, KKW Au-Yeung, YL Siow, G Wang and K O
- 855 **Obituary**

NUMBER 10, OCTOBER 2002

Brief Review

- 859 Effects of cytokines on contractile and dilator responses of airway smooth muscle
A Shore and PE Moore

Original Articles

- 867 Neural control of the renal vasculature in angiotensin II induced hypertension
R Ramchandra, CJ Barrett, S-J Guild and SC Malpas
- 873 Effects of indomethacin on responses of regional kidney perfusion to vasoactive agents in rabbits
JJ Oliver, NW Rajapakse and RG Evans
- 880 Choleresis and inhibition of biliary lipid secretion induced by piperacillin in the rat
P González, JL Mauriz, R Jiménez, J González-Gallego and MJ Tuñón
- 885 Effects of creatine loading and depletion on rat skeletal muscle contraction
M Gagnon, M Maguire, M MacDermott and A Bradford
- 891 Antiplatelet effects of policosanol 20 and 40 mg/day in healthy volunteers and dyslipidaemic patients
ML Arruazabal, V Molina, R Mas, L Fernandez, D Carbajal, S Valdes and G Castano

- 898 Withdrawal reveals lack of effect of prolonged antihypertensive treatment on intrinsic aortic wall stiffness in senescent spontaneously hypertensive rats
V Marque, M Grima, P Kieffer, C Cupdeville-Atkinson, J Atkinson and I Lartaud-Idjouadiene
- 905 Dual nitric oxide mechanisms of cholestasis-induced bradycardia in the rat
AR Mani, A Nahavandi, M Moosavi, R Safarinejad and AR Dehpour
- 909 Intravascular granulocyte aggregates caused by the selectin-binding carbohydrate fucoidin in pig kidneys
S Dittich, F Lippek, A Gratopp, C Grosse-Siestrup, PE Lange and C Bühner
- 915 Actions of specific adenosine receptor A₁ and A₂ agonists and antagonists in recovery of phrenic motor output following upper cervical spinal cord injury in adult rats
KD Nantwi and HG Goshgarian
- 924 Ageing blunts the effects of nitric oxide on myocardial O₂ consumption
HR Weiss, MJ Lazar, J Tse and PM Scholz

Short Communication

- 931 Fluvastatin remodels resistance arteries in genetically hypertensive rats, even in the absence of any effect on blood pressure
JM Ledingham and R Lavery

Symposium: K Channels

- 935 Regulation of K⁺ channels underlying the slow afterhyperpolarization in enteric afterhyperpolarization-generating myenteric neurons: Role of calcium and phosphorylation
F Vogalis, JR Harvey, CB Neylon and JB Furness
- 944 Thiol reagents and nitric oxide modulate the gating of BK_{Ca} channels from the guinea-pig taenia caeci
RJ Lang and JR Harvey

NUMBER 11, NOVEMBER 2002

Brief Review

- 951 Clinical trials and tribulations
GT McInnes

Original Articles

- 868 Increased cerebral blood flow and cardiac output following cerebral arterial air embolism in sheep
DJ Williams, DJ Doolette and RN Upton
- 956 Heat stress increases endothelium-dependent relaxations and prevents reperfusion-induced endothelial dysfunction
V Richard, K Laude, C Artigues, N Kaeffer, J-P Henry and C Thuillez
- 963 Effects of *Ginkgo biloba* extract (EGb 761) on cerebral thrombosis and blood pressure in stroke-prone spontaneously hypertensive rats
Y Sasaki, T Noguchi, E Yamamoto, JC Giddings, K Ikeda, Y Yamori and J Yamamoto
- 968 Transforming growth factor- β 1 does not relate to hypertension in pre-eclampsia
A Hennessy, S Orange, N Willis, DM Painter, A Child and JS Horvath
- 972 Effect of oestrone on membrane fluidity of erythrocytes is mediated by the nitric oxide-dependent pathway: An electron paramagnetic resonance study
K Tsuda, Y Kinoshita-Shimamoto, K Kimura and I Nishio
- 980 Peripheral injection of risperidone, an atypical antipsychotic, alters the bodyweight gain of rats
M Ota, K Mori, A Nakashima, YS Kaneko, K Fujiwara, M Itoh, A Nagasaka and A Ota
- 990 Nitric oxide inhibits renal cytochrome P450-dependent epoxigenases in the rat
A Oyekan
- 996 Pirfenidone attenuates ischaemia-reperfusion injury in the rat small intestine
TV Arumugam, IA Shiels, SB Margolin, SM Taylor and L Brown
- 1001 Abnormality in fibre type distribution of soleus and plantaris muscles in non-obese diabetic Goto-Kakizaki rats
K Yasuda, W Nishikawa, N Iwanaka, E Nakamura, Y Sieno, K Tsuda and A Ishihara
- 1009 A diet supplemented with thiolic anti-oxidants improves leucocyte function in two strains of prematurely ageing mice
N Guayervas, M Puerto, MD Ferrández and M De la Fuente

Short Communication

- 1015 Propofol differently alters vascular reactivity in normotensive and hypertensive rats
E Samain, A Clichet, H Bouillier, P Chamiot-Clerc, M Safar, J Marty and J-F Renaud

ASCEPT 2001

- 1018 Roles and regulation of glutamate transporters in the central nervous system
RD O'Shea

- 1024 Human vascular endothelial growth factor B: Characterization of recombinant isoforms and generation of neutralizing monoclonal antibodies
PD Scotney, A MacKenzie, P Maccarone, LJ Fabri, SDB Scrofani, PR Gooley and AD Nash
- 1030 Why do neuroprotective drugs that are so promising in animals fail in the clinic? An industry perspective
AR Green
- 1035 Effects of vascular endothelial growth factor (VEGF)_A and VEGF_B gene transfer on vascular reserve in a conscious rabbit hindlimb ischaemia model
CE Wright
- 1040 Evolution of drug metabolism: Hitchhiking the technology bandwagon
JO Miners
- 1045 **Book Review**

NUMBER 12, DECEMBER 2002

Brief Review

- 1047 The guinea-pig oesophagus is a versatile *in vitro* preparation for pharmacological studies
KP Kerr

Original Articles

- 1055 Changes in mean arterial pressure predict degranulation of renomedullary interstitial cells
C Maric, PJ Harris and D Alcorn
- 1060 Effects of the angiotensin-converting enzyme inhibitor alacepril on exercise capacity and neurohormonal factors in patients with mild-to-moderate heart failure
T Kinugawa, S Osaki, M Kato, K Ogino, M Shimoyama, Y Tomikura, O Igawa, I Hisatome and C Shigemasa
- 1066 Responses to endothelium-derived factors and their interaction in mesenteric arteries from Wistar-Kyoto and stroke-prone spontaneously hypertensive rats
F Sekiguchi, T Nakahira, K Kawata and S Sunano
- 1076 Effects of sustained-release tulobuterol on asthma control and β -adrenoceptor function
H Kume, M Kondo, Y Ito, R Suzuki, K Yamaki and K Takagi
- 1084 Changes in mRNA expression induced by sustained noradrenaline stimulation are different for α_1 -adrenoceptor subtypes in HEK293 cells
B Lei, Y Zhang and C Han
- 1091 Effects of glutathione S-transferase inhibitors on nitroglycerin action in pig isolated coronary arteries
T Matsuzaki, M Sakanashi, J Nakasone, K Noguchi, K Miyagi, M Sakanashi, I Kukita, Y Aniya and M Sakanashi
- 1096 Increased renal vascular resistance in zinc-deficient rats: Role of nitric oxide and superoxide
N Kurihara, H Yanagisawa, M Sato, C-K Tien and O Wada
- 1105 Effect of creatine manipulation on fast-twitch skeletal muscle of the mouse
DM Robinson and DS Loiselle
- 1112 Reduced [¹²⁵I]-Bolton Hunter substance P binding (NK₁ receptors) in the basal forebrain nuclei of aged rats
DP Geraghty and CM Maguire
- 1116 **Referees**
- 1118 **Author Index**
